

# TRAVERSE CLOUD

## All of the advantages of TRAVERSE, powered by Microsoft Cloud and managed by Open Systems

TRAVERSE Cloud from Open Systems is the no-worries way to get your hands on the best business software on the market while spending less on I.T. overhead. TRAVERSE Cloud gives you the power and flexibility of TRAVERSE with fully-managed IT support and an easy-to-budget price.

## Simplified maintenance, updates, security, and deployment

TRAVERSE Cloud provides the workflow, features, and functionality you'd expect from top-flight business software, built on 40 years of expertise by Open Systems. You'll spend less time and money on server maintenance, manual software updates, and securing your data.

Rolling out TRAVERSE to your employees has never been easier. TRAVERSE Cloud eliminates connectivity concerns caused by complex multiple sites or the occasional work-at-home day. Experience unsurpassed productivity when you and your fellow employees can access TRAVERSE anywhere, anytime with total peace of mind.

## Don't let the cloud scare you

The "cloud" isn't about fogging up your processes. It's about eliminating barriers and helping you concentrate on the important things your business needs to succeed. When you use TRAVERSE Cloud, there's nothing standing in between you and your productivity. Here are just a few advantages you'll experience with TRAVERSE Cloud

- Lower up-front investment.
- Shorter time to implement.
- No risk of incompatible or incorrectly configured server hardware.
- Stable and secure Microsoft Cloud (Azure) hosting.
- Reduced local IT staff or consultant costs.
- Better sleep at night – let someone else worry about backups, updates, and security.

# TRAVERSE CLOUD

## Why I.T. Professionals will love TRAVERSE Cloud, powered by Microsoft Cloud

TRAVERSE Cloud ensures a technology infrastructure that's secure, up-to-date, and working hard for your users. With TRAVERSE Cloud, you accomplish that and free up your time to reach strategic goals instead of chasing down maintenance issues. And doesn't that sound nice for a change?

## Month to Month Pricing

Our unique two tier pricing model makes TRAVERSE Cloud a no-brainer. Our pricing model works to meet your companies business needs at a cost based upon your number of users.

### THE FOLLOWING ARE INCLUDED STANDARD WITH TRAVERSE CLOUD:

- **TRAVERSE Global ERP- General Ledger, Accounts Payable, and Accounts Receivable (other application configurations available)**
- **Microsoft Cloud Hosting (Azure)**
- **Managed Backup Service including Nightly Database Backups**
- **Monthly TRAVERSE and Microsoft Updates**

## TRAVERSE Cloud for everyone

It doesn't matter if your job title is CEO, I.T. manager, or if you're an accountant who got roped into managing the server; if you're maintaining your software on-premises, TRAVERSE Cloud will significantly reduce the time you spend maintaining servers, updating software, and keeping your network secure.
