

TRAVERSE CLOUD HOSTING

TRAVERSE hosting powered by Microsoft Cloud and managed by Open Systems

The TRAVERSE Microsoft Cloud Hosting Service from Open Systems is the no-worries way to cloud host your TRAVERSE software while spending less on I.T. Overhead. Our Microsoft Cloud Hosting Service includes Azure cloud server space for your TRAVERSE, coupled with fully-managed IT support and an easy-to-budget price.

Simplified maintenance, updates, security, and deployment

TRAVERSE Microsoft Cloud Hosting Service from Open Systems is the no-worries way to cloud host your TRAVERSE software. Our Microsoft Cloud Hosting Service includes Azure cloud server space for your TRAVERSE, coupled with fully-managed IT support at an easy-to-budget fixed monthly price. The bottom line: Lower initial and ongoing IT costs, combined with piece of mind knowing that you have a TRAVERSE certified IT team managing and maintaining your cloud servers and backups.

Rolling out TRAVERSE to your employees has never been easier. TRAVERSE Cloud eliminates connectivity concerns caused by complex multiple sites or the occasional work-at-home day. Experience unsurpassed productivity when you and your fellow employees can access TRAVERSE anywhere, anytime with total peace of mind.

Don't let cloud hosting scare you

The “cloud” isn't about fogging up your processes. It's about eliminating barriers and helping you concentrate on the important things your business needs to succeed.

When you use TRAVERSE Cloud Hosting, there's nothing standing in between you and your productivity.

- **Shorter time to implement.**
- **No risk of incompatible or incorrectly configured server hardware.**
- **Stable and Secure Microsoft Cloud (Azure) hosting.**
- **Better sleep at night – let someone else worry about backups, updates, and security.**

TRAVERSE CLOUD HOSTING

I.T. will love TRAVERSE Cloud Hosting, powered by Microsoft Cloud

TRAVERSE Cloud Hosting ensures a technology infrastructure that's secure, up-to-date, and working hard for your users. With TRAVERSE Cloud Hosting, you accomplish that and free up your time to reach strategic goals instead of chasing down maintenance issues.

WHAT'S INCLUDED:

- We only use Microsoft Data Centers located in the US (DOD Level 2 certified).
- All logins/access are made over 2048 bit encrypted connections.
- SQL Server included – no need to purchase or upgrade your own expensive SQL Server license.
- Nightly database backup to Microsoft cloud storage included, with more frequent or replicated backup options available.
- Approved modifications can be installed by OSI IT team.
- TRAVERSE Build updates are installed at minimum once per quarter.
- Cloud servers are kept up-to-date with all Microsoft updates and service packs, via a scheduled update cycle.
- Access to our cloud support team for connection issues, login, or printing issues, or to set up a new employee login, reset password, or disable a login.
- Your existing TRAVERSE databases can be easily moved to cloud SQL server.
- Custom hosting models available, including hybrid deployment.
- Office 365 Cloud (optional) – Microsoft Word, Excel, and Powerpoint connected to your TRAVERSE cloud server. No need to purchase, install and maintain local Office licenses on each PC.

TRAVERSE Cloud Hosting for everyone

It doesn't matter if your job title is CEO, I.T. manager, or if you're an accountant who got roped into managing the server; if you're maintaining your software on-premises, TRAVERSE Cloud Hosting will significantly reduce the time you spend maintaining servers, updating software, and keeping your network secure. Contact your software provider for more details, or visit www.osas.com.
